THE GORMAN-RUPP COMPANY

EXPORT POLICY STATEMENT

As a global company that operates in the United States, The Gorman-Rupp Company is governed by U.S. export control laws and regulations regarding the exportation and/or re-exportation of products, spare parts, accessories, training materials and technical data. It is the policy of The Gorman-Rupp Company that under no circumstances will sales be made contrary to U.S. export control laws and regulations or the policies and procedures of The Gorman-Rupp Company Export Compliance Program.

Every employee and distributor of The Gorman-Rupp Company must remember that exporting our products is a privilege, not a right, granted by the U.S. government.

The Gorman-Rupp Company includes: AMT Pump Company, Fill-Rite Company, Gorman-Rupp of Canada Limited, Gorman-Rupp Europe B.V., Gorman-Rupp Belgium SA, Gorman-Rupp Industries Division, Gorman-Rupp Pumps USA Division, GRC Fill-Rite Mexico S.A. de C.V., National Pump Company, Patterson Pump Company, Patterson Pump Ireland Limited, Gorman-Rupp Africa (Pty) Ltd. and Pumptron (Pty) Ltd.

Although many of our products do not require export licenses prior to shipment to most countries, some products are more tightly controlled because of concerns regarding the proliferation of chemical and biological weapons, missile technology and nuclear weapons, and trade with some countries and end users is regulated even if the product itself is not.

Accordingly, as an exporter, The Gorman-Rupp Company is responsible for screening its customers and transactions. Careful review of both the end-use and the end-users involved with our international transactions is required to ensure export control compliance. These responsibilities require the active participation of every employee and distributor responsible for, involved in or knowledgeable of any international sale.

This statement will be disseminated throughout the organization and incorporated into training and presentations.

Scott A. King
Chairman and Chief Executive Officer
